1. Newly submitted claims 149-168 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: These claims are directed to various products incorporating a material made by the method as defined in claim 131, and would have been the subject of a restriction requirement had they been presented in the application as originally filed.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 149-168 are withdrawn as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with David Dockery on September 28, 2005.

3. In the claims:

Claims 149-168 have been canceled.

4. The Title of the invention has been changed to:

--Method for Making a Film from Silver-Containing Particles--.

Art Unit: 1742

5. The following is an examiner's statement of reasons for allowance:

a) As stated by Applicant in the response filed June 23, 2005, all outstanding rejections of the claims require the use of a reference having an effective date subsequent to the filing date of the present invention.

b) The prior art (including the art cited on the attached PTO-1449 forms) does not disclose or suggest a process of forming a film as presently claimed, particularly does not disclose or suggest such a process using silver-containing particles having a size, a size distribution, and a crystallite size as recited in independent claim 131.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Wyszomierski whose telephone number is (571) 272-1252. The examiner can normally be reached on Monday thru Friday from 8:00 a.m. to 4:30 p.m. Eastern time.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy King, can be reached on (571) 272-1244. Effective July 15, 2005, all patent application related correspondence transmitted by facsimile must be directed to the new central facsimile number, (571)-273-8300. This new Central FAX Number is the result of relocating the Central FAX server to the Office's Alexandria, Virginia campus.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
